## **DETAILED ACTION**

### **Status of the Claims**

Claims 1-65 have been cancelled.

Claims 66-85 are pending.

This is in reference to applicant's petition decision filed on 08/06/08.

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

Claims 67, 74 and 78 remain rejected under 35 U.S.C. 103(a) as being unpatentable over Winn et al., (U.S. Patent Number 4,093,726) for the reasons set forth in the previous office action mailed on 09/10/07.

***Response to Remarks***

Applicant's arguments filed on 05/05/08 have been fully considered and are deemed persuasive with regards to Sun et al. However, rejection of claims 67, 74 and 78 under 35 U.S.C. 103 over Winn et al., still applies because 5-membered ring is still recited under the definition of R<sup>4</sup>. It is noted that applicants amended claim 66 to overcome the rejection of record, but the claims above were not amended. Amending the claims above would appear to put the claims in condition for allowance.

***Allowable Subject Matter***

Claims 68-73, 75-77, 79-85 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
